Redistricting Rules and Goals

1. Federal Laws

Equal Population
Federal Voting Rights Act
No Racial Gerrymandering

2. California Criteria for Cities

Geographically contiguous

Undivided neighborhoods and "communities of interest"

(Socio-economic geographic areas that should be kept together)

Easily identifiable boundaries

Compact

(Do not bypass one group of people to get to a more distant group of people)

Prohibited:

"Shall not favor or discriminate against a political party."

3. Other Traditional Redistricting Principles

Minimize voters shifted to different election years

Respect voters' choices / continuity in office

Future population growth

Preserving the core of existing districts

Defining Neighborhoods

1st Question: What is your neighborhood?

2nd Question: What are its geographic boundaries?

Examples of physical features defining a neighborhood boundary:

- Natural neighborhood dividing lines, such as highway or major roads, rivers, canals and/or hills
- Areas around parks or schools
- Other neighborhood landmarks

In the absence of public testimony, planning records and other similar documents may provide definition.

Beyond Neighborhoods: Defining Communities of Interest

1st Question: What defines your community?

- Geographic Area, plus
- Shared issue or characteristic
 - Shared social or economic interest
 - Impacted by county policies
- Tell us "your community's story"

2nd Question: Would this community benefit from being "included within a single district for purposes of its effective and fair representation"?

Or would it benefit more from having multiple representatives?

Definitions of Communities of Interest may <u>not</u> include relationships with political parties, incumbents, or political candidates.

Beyond Neighborhoods: Communities

Under the California Elections Code, "community of interest" has a very specific definition in the context of districting and redistricting cities and counties:

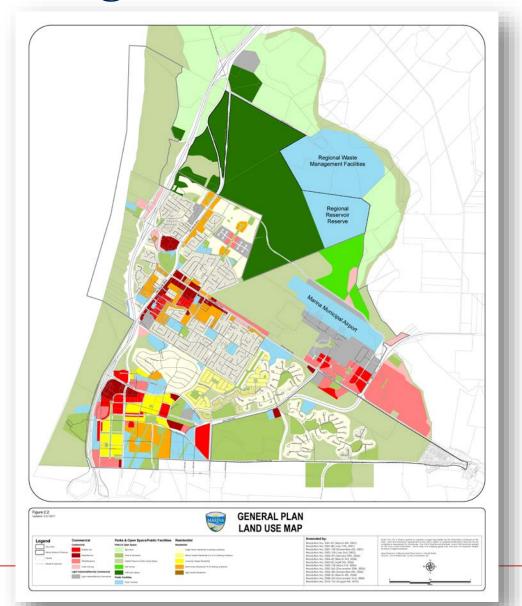

A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation.

Communities of interest do not include relationships with political parties, incumbents, or political candidates.
